Rarely found in our neighbourhood is a historical building, which has had a creative transformation like 26 High, often admired for its handsome façade looks and ease of convenience located via a easy service road off High Street on the fringe Clifton Hill. An unassuming gated entrance is enjoyed by only 11 of these inner-city homes, which upon entering through, surprisingly gives you a sense of inner-city escape.

This unique 3 level layout is so practical and functional with the airy middle floor offering a welcoming open plan layout naturally spilling outdoors and overseen by a well-planned hostess kitchen. A wonderfully light filled bedroom suite with its own outdoor retreat is perfectly separated from everyday living on the very upper level which also offers a dedicated homework space and private bathroom with
